

## Surge Protector NVS-001CB

### Features

- Surge protection device for video transmission via coaxial cable
- No power supply needed

| Specifications             | Description              |
|----------------------------|--------------------------|
| Max. Surge Protection Time | 1 ns                     |
| Protection Level           | 4 kV                     |
| Surge Life                 | 300 surges of 100 A/s    |
| Normal Resistance          | 10 000 MOhm              |
| Surge Resistance           | Approx. 0 Ohm            |
| Bandwidth                  | 0 ~ 1 GHz                |
| Insertion Loss             | < 0.2 dB                 |
| Connector                  | BNC                      |
| Operating Temperature      | 0° ~ 55°C                |
| Dimensions (mm)            | 78 (L) x 25 (W) x 25 (H) |
| Weight                     | 65 g                     |
| Cable Type                 | Coaxial                  |
