

## Color & Day/Night Cameras

### B Series

- Resolution of up to 650TVL
- Min. Illumination from 0.01 lx/F=1.2
- Lens: f=2.8 ~ 10.5 mm (excluding classic cameras)
- User friendly OSD

Mechanical IR cut filter  
or electronic day/night function  
1/3" SONY Super HAD II  
Motion detection

**B Series contains cameras with advanced image processing and analysis functions. Even the simplest model can operate as a day/night camera and perform all functions available within the series, using an optional NV-RCB remote controller. B Series represents a wide range of cameras with high price to capabilities ratio, which makes them good value for money.**
